

HB SPADE GRIP MOUNT

HOT BUTTON™

Built specifically to mount to the spade grip of many crew served weapons (M2, M134, MK-19, etc) the Unity Tactical SGM Spade Grip Mount is designed for integration of 1-2 Hot Buttons. These switches can be configured to activate Lights, Lasers, Laser Range

Finders (LRFS), Optics, IZLID's, and other devices upon request. The SGM is configured with a dual activation paddle that can be flipped up out of the way to activate the switches independently and also serves as a mechanical lockout. Custom cable lengths can be supplied with an MOQ. Constructed from 7075-T6 and Type 3 anodized black it is built durably for a long service life.
