## M&P® 9 M2.0™ COMPACT OPTICS-READY SPEC SERIES PISTOL KIT

Born from evolutions in the professional and shooting enthusiast spaces, the M&P® Spec Series™ line advances with its 3rd iteration. The newest edition places emphasis on delivering a package that is ideal for those looking to hone their skills and push their limits. The new Spec Series™ pistol comes complete with co-witness sights and a 4.6" threaded barrel, making it an optimal choice for suppressed shooting. Also included is our C.O.R.E.™ system, designed to give the user the ability to mount their preferred handgun optic to maintain accuracy and proficiency when firing. The inclusion of two 23-round 9mm magazines means less time reloading and more time practicing. The additional 15-round magazine trims down the overall size of the new Spec Series™ and allows for a more concealable package.

The M&P® Spec Series™ kit includes an M&P® knife that features a 4" blade with an overall length of 9" and a collectable M&P Spec Series™ Challenge Coin.

Four interchangeable palmswell grip inserts included

Laser engraved "M&P Spec Series" logo on barrel

One 15-rnd & two 23-rnd magazines w/grip adapter

Suppressor height white-dot sights, slide cut for optics and threaded barrel

Flat face trigger

Kit SKU: **13625**

Kit UPC: 022188890938
